Plastops Fixings

- **Coloured Tops**
To match all Freefoam products
- **High Shock Absorption**
Plastic tops remain in place during fixing
- **A4 Marine Grade Stainless Steel**
Eliminates rust and discolouration around pin; and they're tougher too
- **Ringshanked**
For increased grip when installed
- **20 Year Extended Guarantee**
Available on registered installations
- **Belt Clip**
Easy carrying and access to pins while you work.
- **Durable Waterproof Packaging**
Withstands rough on-site and transportation handling

Sable 
Storm Grey 
Dark Grey 

Woodgrain*

Black 
Wood Grain Mahogany 
Wood Grain Oak 

* Products available in these solid colours may be used with foiled woodgrain products.

Care & Installation of Coloured Products

When handled, stored and installed correctly, coloured profiles will remain 'fit for purpose' throughout the guarantee period.

Handling & Storage

- Coloured products should be stored internally away from direct sunlight in their protective sleeving until just before installation.
- Never store coloured products externally or on top of vans for any length of time as heat distortion may occur.

Installation

- Freefoam recommends the use of Plastops plastic-headed pins and nails for the installation of roofline products. Fixing centres vary but should never exceed 600mm for white profiles, 300mm for black profiles, and 400mm for other coloured and woodgrain profiles.
- Products should not be installed where ambient temperatures are likely to exceed 40 degrees Celsius, such as in close proximity to boiler flues or where there is reflected or radiated solar or other sources of heat. They should only be installed when the external air temperature is between 0 and 30 degrees Celsius. The thermal movement that occurs between day and night, sun and cloud, winter and summer should be allowed for as described in the installation recommendations.
- Hollow rigid products should be installed only in areas shaded from direct sunlight such as soffits, porch ceilings, internal cladding, etc.
- Remove the protective film immediately after installation.
- General installation guidelines are outlined in our Technical & Specification Manual (call your local number at the back of this leaflet for a copy).

Notes:

1. The advice and recommendations in this and other technical documents applies only to standard installations and layouts. The user is in all cases recommended to consult with their Architect or Engineer.
2. All specifications, dimensions, descriptions and illustrations contained in any sales literature, quotation, or pricelist or other advertisement matter are intended merely to present a general idea of the goods that we sell. We reserve the right from time to time to make changes which are required to comply with any applicable safety or statutory requirements or which do not materially affect the quality or fitness for purpose of the goods you purchase from us.

Roofline Colour Range

COLORMAX[™]
technology

Freefoam's unique Roofline Colour collection with Colormax™ technology

Freefoam manufactures a wide range of high quality, low maintenance PVC-U and PVC-UE building products for fascia, soffit, gutter, cladding and window applications.

Freefoam's innovative Colormax™ technology provides ground-breaking colour variety, colour matching and colourfastness. As a result specifiers, contractors and homeowners are now empowered to put their individual mark on their house or project. Furthermore, the inherent strength of the technology enables Freefoam to offer a 20-year extended guarantee* on white and a 10 year guarantee on all other colours.

Products are available in a wide range of colours including white, pale gold, sable, storm grey, dark grey, black, leather brown, wine red, regal blue and rustic green. A wider colour range is available for special projects, and a colour matching service is available subject to lead-time and minimum order quantities.

Freefoam also manufactures a range of woodgrain finishes including light oak, rosewood, mahogany and black ash for an authentic timber-look without the associated maintenance. The woodgrain range comes with a 10 year guarantee.

* Terms & conditions apply (see www.freefoam.com for details).

Freefoam's innovative Colormax™ technology provides ground-breaking colour variety, colour matching and colourfastness.

By using a proprietary formulation that contains a unique selection of stabilisers and pigments specially chosen for their high colourfastness properties, Freefoam can confidently offer a wide range of colours.

In addition, Freefoam developed an advanced master-batching process where a special blend of natural PVC compound is dosed on-line with specific concentrations of pigment enabling the company to produce high quality colours easily and quickly.

As a result specifiers, architects, contractors and homeowners can now put their individual mark on their house or project with ease. Furthermore, the inherent strength of the technology enables Freefoam to offer a 20-year extended guarantee* on white and a 10 year guarantee on all other colours.

* Terms & conditions apply (see www.freefoam.com for details).

- Notes:**
1. The Ral numbers shown above are the nearest to our colours, however we cannot guarantee an exact match.
 2. Colours shown are for availability identification only. Please see colour swatch or product samples for exact colour representations.
 3. A wider colour range is available for special projects and a colour matching service is available subject to lead-time and minimum order quantities.
 4. A full range of matching Plastops pins and nails is available.
 5. Please contact Freefoam or see out Technical & Specification Manual for nearest NCS and Pantone reference numbers.

Woodgrain Range

 Black Ash (WGB)	 Rosewood (WGR)
 Light Oak (WGO)	 Mahogany (WGM)

Manufactured with market leading Renolit EXOFOL MX Foils incorporating Solar Shield Technology (SST). SST offers built in sun reflection which reduces heat absorption, thus minimising profile temperature and expansion.

Note:
The woodgrain range comes with a 10 year guarantee.
